

appear to be conspecific by judging the illustrations and photographs given by Tanikawa (2007: figs 289–294, 754–756). Also, the illustrations of holotype of *P. turriger* Simon, 1897 (Smith 2006: figs. 229–231; Ono et al. 2012: figs 3–5) depict it to be a possible synonym of *P. columnaris*. The taxonomy of the *Polrys columnaris* group thus, needs revision.

Erratum

Habitat and seasonal distribution of Odonata (Insecta) of Mula and Mutha river basins, Maharashtra, India
Kulkarni, A.S. & K.A. Subramanian
Journal of Threatened Taxa 5(7): 4084–4095; <http://dx.doi.org/10.11609/JoTT.o3253.4084-95>
Date of publication: 26 April 2013

(i) Valid name of *Coenagrion dyeri* is *Cercion dyeri* (Fraser 1919). This is to be corrected in Table 2, page 4089 and Appendix 2, page 4094.

(ii) The correct spelling of *Sympetrum fonscolumbi* in Table 2 and Appendix 2 is *Sympetrum fonscolumbii* Selys, 1840.

(iii) *Orthetrum chrysostigma* (Burmeister, 1839) sensu stricto has not yet been reported from India. Fraser (1936) reported *O.c. luzonicum* (Brauer) as the subspecies commonly occurring in India. The valid name of *O.c. luzonicum* (Brauer) is *Orthetrum luzonicum* Brauer, 1868. The entry of *Orthetrum chrysostigma* in Table 2 may be corrected as *Orthetrum luzonicum* and the data pertaining to that may be combined with that of *Orthetrum luzonicum* further down the list.
